Domed Paperweight Template & Design Specifications

INCHES | 1 | 2 | 3

Keep all type and important details of design or photograph in this area--
¼" away from cropped edges it will not be distorted here.

GLASS DISTORTION

GLASS DISTORTION
Design Size: 2½" diameter

Include ⅛" for bleed around all edges
(to extend color or photograph to edges of
dome paperweight). The bleed area will be
cropped and not part of the finished product.

Design Size with Bleed: 2¾" diameter

Distortion
This area (in light grey) will be slightly distorted
by the bend of the glass. Color will be visible.
Smaller details may be hard to see in the distortion.

Uploading – File Types
Acceptable files types include: JPG, PNG, GIF, PDF.

File Size
Please keep file size under 2 MB for easy uploading.
